1655 Richmond Ave, Staten Island, NY · (888) 898-4774 · info@riseandshineaba.com

## BEHAVIOR INTERVENTION & CRISIS MANAGEMENT CONSENT

*Informed consent for procedures used during behavioral crisis*

**DRAFT — NOT FOR USE UNTIL REVIEWED.** This form must be reviewed and approved by the Clinical Director and by legal counsel before being presented to any family. Specific procedures, staff certification requirements, and reporting obligations must be confirmed against New York State regulation and BACB ethical requirements.

### 1 · CLIENT

Child's Full Name:

Date of Birth:

### 2 · OUR APPROACH

Rise & Shine ABA uses positive, proactive, evidence-based strategies. Our first response to challenging behavior is always prevention, environmental modification, teaching replacement skills, and de-escalation. Restrictive procedures are used only as a last resort, only to maintain safety, and only for the minimum time necessary.

### 3 · PROCEDURES THAT MAY BE USED

- Antecedent strategies and environmental modification
- Verbal and non-verbal de-escalation
- Blocking — physically preventing contact to protect the child or others
- Physical guidance — brief hand-over-hand redirection
- Protective hold — a brief, trained hold used only when there is imminent risk of serious harm

### 4 · WHAT WE WILL NOT DO

- No seclusion or locked isolation
- No prone or supine (face-down or face-up) restraint
- No mechanical or chemical restraint
- No procedure that restricts breathing
- No aversive or punishment-based procedures
- No restrictive procedure used for convenience, discipline, or staffing shortage

### 5 · YOUR RIGHTS

- Any restrictive procedure is used only by staff trained and currently certified in a recognized crisis prevention curriculum.
- You will be notified the same day any protective hold is used.
- Every use is documented in an incident report, reviewed by the supervising BCBA, and reported per company policy.
- You may withdraw this consent at any time in writing.
- Withdrawing consent may require a clinical discussion about whether the center setting remains appropriate.

### 6 · CONSENT

☐ I consent to the behavior intervention procedures described above, as implemented under a written behavior plan developed by the supervising BCBA.

☐ I do NOT consent to the use of protective holds. I understand a clinical discussion will follow.
